Subject: Portland Harbor Cleanup

Hello EPA

I urge you to extend comment period 120 more days so we can figure out an alternative clean up plan.

I think your plan is totally inadequate.

The Clean Water Act requires the rivers to be fishable and swimmable. It didn't say, but don't eat the resident fish.

Like I said . . . when I testified in front of you:

I've come to think the tribes do a better job of protecting the environment than our own government in D.C. (or Seattle)

They stopped the coal terminal in Boardman Oregon

They stopped the coal terminal in Whatcom County

They are intervening in the EFSEC adjudication process.

They are taking a stand against oil terminals.

The tribal treaty rights apply to all the first foods in Vancouver area. The least we can do is protect the ecosystems upon which the tribes rely.

Speaking of SeattleI believe Chief Seattle said something like . . . Man did not create the web of life. He is just part of it. What he does to the web he does to himself.

We need a longer comment period. This process has been going on for 15 years. Let's add 120 more days to figure out something better.

In 1853, my wife's gg grandfather settled where Terminal 4 is located. He said it was paradise. The native Americans said the same thing to Lewis and Clark 45 years earlier.
